

MAXHUB XCore Kit Pro for Microsoft Teams Rooms

MAXHUB XCore Kit Pro is a Microsoft Teams Rooms conferencing solution designed for medium to large meeting rooms. It includes a touch-screen (11.6-inch) control panel and a mini-PC (12th gen Intel Core i5 processor) running Microsoft Teams Rooms for seamless collaboration. With wireless content sharing and dual-screen display capabilities, it offers a comprehensive and user-friendly conferencing experience.

Content Share*

*4K Content Sharing launched in Q3 2024 upon firmware update.
 **The MAXHUB XCore Kit Pro is currently undergoing a series of stringent Microsoft compatibility and certification processes, with plans to be certified in Q3, 2024.

Effortless Video Conferencing with Dual Display & Wireless Sharing

The new bundle facilitates a seamless dual-screen display for meeting spaces. Easily initiate wireless content sharing with a single click using the MAXHUB Wireless Dongle, or enjoy exclusive 4K sharing via wired connections.

One-click wireless sharing using the MAXHUB Dongle

*WT13M availability may vary by region. Please consult your authorized reseller for details.

Additional Console for Extra Flexibility

In addition to the default console included in the bundle kit, you can extend the setup by adding another console. This is ideal for larger meeting rooms and ensures easier access to meeting controls for all participants.

A Single Cable Deployment Fits Rooms of All Sizes

Just one Cat5e/Cat6a cable connects the touch console to the Microsoft Teams Rooms mini PC, enabling flexible placement on the table without distance limits.

- Cat5e/Cat6a
- USB
- HDMI

Instant Access with One Click

Just one click on the touch screen to join the meeting and directly control Teams meetings, making it simple and efficient, allowing participants to focus more on the meeting content.

Remote Management

With MAXHUB Pivot, IT managers can easily monitor, control, and update all your room devices remotely.
